Asennusohje

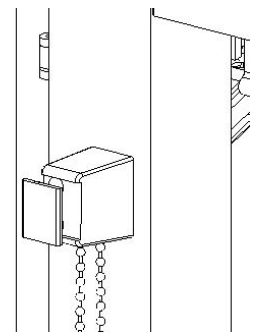

Auro-kaihdin

Asennusohje

Asenna kaihdin paikalleen:

- Ketjupää ensin. Kierrä kaihdinta hieman edestakaisin samaan aikaan painaen kannaketta vasten, jotta ketju napsahtaa kaihtimen vetopään hampaiden päälle.
- Piikkipää liu'utetaan ala- tai yläkautta kannakkeeseen.
- Lopuksi vedetään taaksepäin, jolloin piikkipää lukittuu kannakkeeseen

Paina lopuksi kansi kiinni läpivientiosaan
